## Golf Found to Be Country's Newest Interest

### Percy Wenrich, Composer, Finds Everyone Golfs

New York City—Percy Wenrich, world famous as the composer of "Your Old Gray Socks," has discovered the "something new" for which every writer of popular songs yearns. Percy has composed melodies on every subject under the sun from "silver stars" to "tulips," but recently he was stumped for an idea. What, he asked himself, was the public interested in that every hit writer in Tin Pan Alley had not taken a crack at.

After buzzing around Broadway and the Middle West Percy decided that the new interest of the country was golf. This he found to be no longer a banker's game, but the everyday sport of the so-called "middle class" from Maine to Florida. So, in collaboration with Frank McIntyre of vaudeville fame he wrote "The 19th Hole" in honor of the most interesting play of golf.

"The 19th Hole," Percy explains for the benefit of the few that are not golfers, is located in the clubhouse and is often the real reason the tired business man takes to golf.

### How Better Than Pills?

The question has been asked: In what way are Chamberlain's Tablets superior to the ordinary cathartic and liver pills? Our answer is, they are easier and more pleasant to take and their effect is so gentle that one hardly realizes that it is produced by a medicine. Then, they not only move the bowels but improve the appetite and strengthen the digestion.

There Are Other Richmond People Similarly Situated

Can there be any stronger proof offered than the evidence of Richmond residents? After you have read the following quietly answer the question:  
Geo. O. Parker, carpenter, 339 Moberly Ave., Richmond, says: "I had attacks of kidney complaint that have given me a lot of trouble with sore muscles and back. They came on when my kidneys were out of order. I had dull pains across the small of my back just over my kidneys. I was so lame across my hips that when I bent over I could hardly straighten up and the muscles felt as though they were tied in knots. The lameness in my back was worse in the morning and it bothered me when I stooped to put on my shoes. The change in the weather caused my kidneys to act irregularly. I took Doan's Kidney Pills and I am glad to say they have always relieved me right away."

## Food Remittances to be Basis of Adult Relief Work this Winter in Cleaning Up Russia's Famine Aftermath By A. R. A.

This line of Russians, waiting at a station in Odessa to receive food packages sent through the generosity of American relatives and friends, is typical of what will be the greatest form of alleviation of after-famine conditions in Russia this winter. The American Relief Administration, which built up rapidly a feeding program that reached 10,500,000 persons a day at the height of its operation, abolished adult feeding, at least temporarily, when this year's harvest came in. More than 1,000,000 children a day are still being fed and a vast medical aid, involving \$8,000,000 worth of medical supplies is being continued.  
Latest advices are that the Russian government over-estimated the crop when it gave out figures in July that forecast a yield of 13,000,000 tons in excess of last year. How far wrong this optimism was cannot yet be determined, but Colonel William N. Haskell, director of the A. R. A. in Russia, cabled late in September his belief that approximately 1,000,000 adults would sorely need aid.  
The most practical way of helping to alleviate the suffering which remains after the great famine is through the Food Remittance system. Money sent to the American Relief Administration at 42 Broadway will be applied to general relief or will be made available in the form of food to any designated persons or group in Russia. Doctors, nurses, teachers, preachers and writers are among those who are surest to suffer throughout the winter.
